Note 1: Summary of Significant Accounting Policies:

A. Description of Entity

The Court Services and Offender Supervision Agency (the Agency) for the District of Columbia is an independent agency created by the National Capital Revitalization and Self-Government Improvement Act of 1997 (the Act). During August 2000, the Agency was certified as an independent agency within the Executive Branch of the federal government. Prior to that time the Agency was under the control of a Trustee, appointed by the Attorney General. The Agency is responsible for the functions of: 1) the former District of Columbia (D.C.) Board of Parole, 2) the D.C. Probation function, formerly a part of the District of Columbia Courts, and 3) the D.C. Pretrial Services Agency (the Pretrial Services Agency has authority to function as an independent entity of the Agency.) The Parole and Adult Probation functions are now known as the Community Supervision Program of the Agency.

The mission of the Agency is to increase public safety, prevent crime, reduce recidivism, and support the fair administration of justice in close collaboration with the community. The Agency will enhance decision-making and provide effective community supervision, thereby ensuring public confidence in the criminal justice system.

The majority of the Agency's funding comes from standard appropriations made by Congress. Additional funding is provided through grants from the Department of Justice and the State of Maryland. This additional funding consists of reimbursement work performed by CSOSA on behalf of the requesting entity. CSOSA does not have Earmarked funds.

For the purpose of this financial statement package, the Agency's reporting entity is comprised of two components: (1) the Community Supervision Program (CSP) and, (2) the Pretrial Services Agency (PSA). In FY 2006, the Agency was appropriated \$201,388,000 from Congress, of which the following allocation was made:

	CSP	PSA	PDS	TOTAL FY 2006	TOTAL FY 2005
Appropriation	\$129,360,000	\$42,195,000	\$29,833,000	\$201,388,000	\$180,000,000
Rescission	1,293,600	421,950	298,330	2,013,880	1,440,000
Net Appropriation	\$128,066,400	\$41,773,050	\$29,534,670	\$199,374,120	\$178,560,000

The accompanying financial statements reflect the portion of the appropriated amount that was transferred to the Public Defenders Service (PDS). Although PDS is included with CSOSA's appropriation language, they are an independent agency and have no relationship to CSOSA. Therefore, these funds are being reflected as transferred to PDS and are not considered part of CSOSA's net budgetary resources, assets, liabilities or net cost of operations.

B. Basis of Presentation

These financial statements have been prepared from the books and records of CSOSA in accordance with generally accepted accounting principles as established by the Federal Accounting Standards Advisory Board (FASAB) and supplemented by the Office of Management and Budget (OMB) Circular No. A-136, *Financial Reporting Requirements*.

Note 1: Summary of Significant Accounting Policies (con't):

C. Basis of Accounting

Transactions are recorded on an accrual and a budgetary basis of accounting. Under the accrual basis, revenues are recorded when earned and expenses are recorded when incurred, regardless of when cash is exchanged. Under the federal budgetary basis of accounting, funds availability is recorded based upon legal considerations and constraints. Budget authority is the authority provided by federal law to incur financial obligations that will result in outlays or expenditures.

D. Revenues and Other Financing Sources

The Agency receives the majority of funding needed to support its programs through Congressional appropriations. CSOSA receives an annual appropriation that may be used, within statutory limits, for operating and capital expenditures. CSOSA also has a No-Year appropriation. This No-Year appropriation has been designated as: "available until expended for construction expenses at new or existing facilities", see Public Law 107-96. Additional funding is provided through grants from the Department of Justice and the State of Maryland. CSOSA earns exchange revenue through inter-agency agreements with other Federal entities for which CSOSA provides grant administration services. Revenues are recognized at the time related program or administrative expenses are incurred. CSOSA reviews and classifies their interagency agreements as either exchange or transfers in.

E. Fund Balance with Treasury

Funds with the Treasury represent primarily appropriated funds available to pay current liabilities and finance future authorized purchases. Treasury, as directed by authorized certifying officers, processes receipts and disbursements on behalf of CSOSA. CSOSA does not maintain cash in commercial bank accounts nor does CSOSA maintain an imprest fund.

F. Accounts Receivable

Accounts receivable consists of receivables and reimbursements due from Federal agencies and others. Generally, intragovernmental accounts receivable are considered fully collectible.

G. Property, Plant and Equipment

Property and equipment is recorded at cost and is depreciated using the straight-line method over the useful life of the asset, when the estimated useful life of an asset is two or more years. Leasehold improvements are capitalized when the improvements are made and amortized over the remaining term of the lease agreement. CSOSA has established capitalization thresholds, \$100,000 for leasehold improvements and \$25,000 for equipment. Other property items, normal repairs, and maintenance are charged to expense as incurred.

Internal use software is capitalized when developmental phase costs or enhancement costs are \$500,000 or more and the asset has an estimated useful life of two or more years.

Note 1: Summary of Significant Accounting Policies (con't):

H. Advances and Prepayments

Payments in advance of the receipt of goods and services are recorded as prepaid charges at the time of prepayment and are recognized as expenditures/expenses when the related goods and services are received.

I. Liabilities

Liabilities represent the monies or other resources that are likely to be paid by CSOSA as the result of a transaction or event that has already occurred. However, no liability can be paid absent the proper budget authority. Liabilities that are not funded by the current year appropriation are classified as liabilities not covered by budgetary resources.

J. Contingencies and Commitments

CSOSA is a party to various administrative proceedings, legal actions and claims. A liability is recognized as an unfunded liability for any legal actions where unfavorable decisions are considered "probable" and an estimate for the liability can be made. Contingent liabilities that are considered "reasonably possible" are disclosed in the notes to the financial statements. Liabilities that are considered "remote" are not recognized in the financial statements or disclosed in the notes to the financial statements.

K. Annual, Sick and Other Leave

Annual and compensatory leave is accrued, as an unfunded liability, as it is earned. Each year the accrued unfunded annual leave liability account is adjusted to reflect the current unfunded leave earned and the current pay rates. To the extent current or prior year appropriations are not available to fund annual and compensatory leave earned, funding will be obtained from future financing sources. Sick leave and other types of non-vested leave are expensed as taken.

L. Interest on Late Payments

Pursuant to the Prompt Payment Act, 31 U.S.C. 3901-3907, CSOSA pays interest on payments for goods or services made to business concerns after the due date. The due date is generally 30 days after receipt of a proper invoice or acceptance of the goods or services, whichever is later.

M. Retirement Plans

CSOSA participates in the retirement plans offered by the Office of Personnel Management (OPM) and does not maintain any private retirement plans. CSOSA employees participate in either the Civil Service Retirement System (CSRS) or the Federal Employees Retirement System (FERS). For employees covered by the CSRS, CSOSA contributes 7.0 percent of the employees' gross pay for normal retirement and 7.5 percent for law enforcement retirement. For employees covered by the FERS, CSOSA contributes 11.2 percent of employees' gross pay for normal retirement and 23.8 percent for law enforcement retirement. All employees are eligible to contribute to the Federal Thrift Savings Plan (TSP). For employees covered by the FERS, a TSP account is automatically established and CSOSA is required to contribute 1 percent of gross pay to this plan and match employee contributions up to 4 percent. No matching contributions are made to the TSPs established by CSRS employees. CSOSA does not report

Note 1: Summary of Significant Accounting Policies (con't):

CSRS or FERS assets, accumulated plan benefits or unfunded liabilities, if any, which may be applicable to its employees, such reporting is the responsibility of OPM. The Statement of Federal Financial Accounting Standards (SFFAS) No. 5, "Accounting for Liabilities of the Federal Government", requires employing agencies to recognize the cost of pensions and other retirement benefits during their employees' active years of service, see footnote on Imputed Financing Sources for additional details.

N. Federal Employees Compensation Benefits

The Federal Employees Compensation Act (FECA) provides income and medical cost protection to cover Federal civilian employees injured on the job, employees who have incurred a work-related occupational disease, and beneficiaries of employees whose death is attributable to a job-related injury or occupational disease. The total FECA liability consists of an actuarial and an accrued portion as discussed below.

Actuarial Liability: The U.S. Department of Labor (DOL) calculates the liability of the Federal Government for future compensation benefits, which includes the expected liability for death, disability, medical and other approved costs. The liability is determined using the paid-losses extrapolation method calculated over the next 37-year period. This method utilizes historical benefit payment patterns related to a specific incurred period to predict the ultimate payments related to that period. The projected annual benefit payments are discounted to present value. The resulting Federal Government liability is then distributed by agency. The portion of this liability (if any) would include the estimated future cost of death benefits, workers' compensation, medical and miscellaneous cost for approved compensation cases for CSOSA employees

The FECA actuarial liability (if any) is recorded for reporting purposes only. This liability constitutes an extended future estimate of cost, which will not be obligated against budgetary resources until the fiscal year in which the cost is actually billed.

Accrued Liability: The accrued FECA liability (if any) is the amount owed to DOL for the benefits paid from the FECA Special Benefits Fund for which CSOSA has not yet reimbursed.

O. Use of Estimates

The preparation of financial statements requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

P. Restatements

As discussed in note 13, CSOSA restated the FY 2004 ending balances of the two components of Net Position, Unexpended Appropriations and Cumulative Results of Operations, to appropriately present the individual line items.

Note 2: Fund Balance with Treasury:

The Fund Balance with Treasury amount represents the unexpended cash balance of CSOSA's Treasury Symbols and consists of the following as of September 30, 2006:

Fund Balance	CSP	PSA	Total FY 2006	Total FY 2005

Note 4: General Property, Plant and Equipment, Net:

Items are generally depreciated using the straight-line method. CSOSA has established the following capitalization thresholds: Equipment for \$25,000 or greater, with a useful life of five years; Leasehold Improvements for \$100,000 or greater, amortized over the remaining term of the current lease agreement; and \$500,000 for Software Development with a useful life of two or more years. Equipment consists of laboratory equipment used for the purpose of drug testing related to CSOSA's mission to supervise offenders. Equipment also includes general office equipment used to support CSOSA administratively. Leasehold improvements represent modification made to leased assets for CSOSA's specific needs. The Supervision Management

Note 4: General Property, Plant and Equipment, Net (con't):

Automated Record Tracking system (SMART) is CSOSA CSP's Internal Use Software. SMART was developed in-house and is consistently being updated and enhanced. These enhancements enable CSOSA to better track the individuals under CSOSA's jurisdiction. SMART is consistently being reviewed and updated. The Pretrial Real Time Information System Manager (PRISM) is PSA's Internal-Use Software. PRISM provides electronic information on bench warrants that have been issued for defendants who failed to appear for Court. Through the Data Warehouse, PSA is able to extract aggregate performance information from PRISM on rearrest and failure to appear (FTA). PRISM is consistently being reviewed and updated. Property, Plant and Equipment balances as of September 30, 2005 are as follows:

CSP	Purchase Cost	Accumulated Depreciation	Net Book Value FY 2006	Net Book Value FY 2005

Note 5: Liabilities Covered / Not Covered by Budgetary Resources:

Liabilities represent the monies or other resources that are likely to be paid by CSOSA as the result of a transaction or event that has already occurred. Liabilities not covered by budgetary resources are liabilities for which Congressional action is needed before budgetary resources can be provided. Liabilities that are not funded by the current year appropriation are classified as liabilities not covered by budgetary resources. Liabilities not covered by budgetary resources consist of Accrued Unfunded Annual Leave earned but not used as of September 30. The accrued unfunded annual leave liability is adjusted as leave is earned and used throughout the year. The expenditure for these accruals will be funded from future Congressional actions as the expenses are incurred. The annual net change of the Accrued Unfunded Annual Leave is reflected in the Statement of Financing.

Note 5: Liabilities Covered / Not Covered by Budgetary Resources (con't):

Note 6: Exchange/Earned Revenue:

CSOSA earns exchange revenue through inter-agency agreements with other Federal and State entities for which CSOSA provides grant administration services. Revenues are recognized at the time related program or administrative expenses are incurred. CSOSA reviews and classifies their inter-agency agreements as either exchange or transfers in.

Note 7: Leases:

Operating leases have been established for multiple years. Many of the operating leases that expire over an extended period of time include an option to renew the lease for additional periods. The majority of space that CSOSA leases is based on the GSA square footage requirements and the rental charges are intended to approximate commercial rates. It is anticipated that, in most cases, CSOSA will continue to lease space.

Note 9: Imputed Financing Sources:

Imputed financing recognizes actual cost of future benefits to employees, the Federal Employees Health Benefits Program (FEHB), the Federal Employees Group Life Insurance Program (FEGLI), and the Retirement Plans that are paid by other Federal entities. SFFAS No. 5, "Accounting for Liabilities of the Federal Government", requires that employing agencies recognize the cost of pensions and other retirement benefits during their employees' active years of service. SFFAS No. 5 requires OPM to provide cost factors necessary to calculate these costs. OPM actuaries calculate the value of pension benefits expected to be paid in the future, and then determine the total funds to be contributed by and for covered employees. For "regular" and "law enforcement" employees of FERS and CSRS, OPM calculated that 12.0 percent and 25.1 percent for FERS and 25.0 percent and 40.3 percent for CSRS respectively of each employee's salary would be sufficient to fund these projected pension benefit costs. The cost to be paid by other agencies is the total calculated future costs, less employee and employer contributions. In addition, other retirement benefits, which include health and life insurance that are paid by other Federal entities, must also be disclosed.

Imputed financing sources:

	CSP	PSA	Total FY 2006	Total FY 2005
FEHB	\$3,612,439	\$1,492,738	\$5,105,177	\$4,614,419
FEGLI	9,262	3,700	12,962	12,157
Pensions	2,339,547	493,899	2,833,446	2,857,496
Total	\$5,961,248	\$1,990,337	\$7,951,585	\$7,484,072

Note 10: Contingencies and Commitments:

CSOSA is a party to various administrative proceedings, legal actions and claims. As of September 30, 2006, there were six pending legal actions where adverse decisions are considered to be reasonably possible. The estimated amount of losses range from \$1 to \$209,502.

Note 11: Apportionment Categories of Obligations Incurred:

Obligations incurred as reported on the Statement of Budgetary Resources, for the period ended September 30, consisted of the following:

Fiscal Year Ended Sept. 30, 2006	Direct	Reimbursable	Total FY	Total FY
Obligations Apportioned Under:	Obligations	Obligations	2006	2005
CSP Category A PSA	\$128,811,678	\$1,533,508	\$130,345,186	\$121,268,463
Category A Total	41,615,492	199	41,615,691	39,620,515
	\$170,427,170	\$1,533,707	\$171,960,877	\$160,888,978

OMB usually uses one of three categories to distribute budgetary resources, they are:

Category A: apportionments distribute budgetary resources by fiscal quarters;

Category B: apportionments typically distribute budgetary resources activities, projects, objects or a combination of these categories;

Category C: apportionments may be used in multi-year and no-year.

Note 12: Explanation of Differences Between the Statement of Budgetary Resources and the Budget of the United States Government:

The following is provided as a reconciliation of the FY 2006 Statement of Budgetary Resources (SBR) and the Budget of the United States Government:

Fiscal Year 2006	Budget Resources	Obligations Incurred	Net Outlays
Combined Statement of Budgetary Resources:	\$188	\$172	\$162
Differences:			
Enacted Reductions	-2		
Recoveries of Prior Year Unpaid			
Obligations	-4	-4	
Permanently Not Available	-1		
Other	-8	1	
Budget of the U.S. Government	\$173	\$169	\$162

Other differences represent financial statement adjustments, uncorrected MAX adjustments, timing differences and other immaterial differences between amounts reported in the CSOSA SBR and the Budget of the United States Government.

Note 12: Explanation of Differences Between the Statement of Budgetary Resources and the Budget of the United States Government (con't):

The following is provided as a reconciliation of the FY 2005 Statement of Budgetary Resources (SBR) and the Budget of the United States Government:

Fiscal Year 2005	Budget Resources	Obligations Incurred	Net Outlays
Combined Statement of Budgetary Resources:	\$172	\$161	\$149
Differences:

Enacted Reductions	-6		
Recoveries of Prior Year Unpaid			
Obligations	-4	-4	
Other		1	-1
Budget of the U.S. Government	\$192	\$188	\$174

In 2005 the Public Defenders Service's (PDS) appropriation amount was included in CSOSA's section of the Budget of the U.S. Government. However, the PDS appropriation amount was not included in the Statement of Budgetary Resources because PDS is a separate and independent reporting entity.

Other differences represent financial statement adjustments, timing differences and other immaterial differences between amounts reported in the CSOSA SBR and the Budget of the United States Government.

Note 13: Restatements:

CSOSA corrected its fiscal year 2005 opening balances of the two components of Net Position--Unexpended Appropriations and Cumulative Results of Operations--to appropriately present the individual line items. Two additional adjustments were made to appropriately state the components of Net Position as of October 1, 2004. These adjustments were related to Federal Employees Compensation Act (FECA) Actuarial Liability and High Intensity Drug Trafficking Areas (HIDTA) Grant receivable amounts. These errors were attributable to a material weakness over financial reporting with respect to performing account reconciliations. Management developed a corrective action plan to address the related finding. These adjustments were as follows:

- (A) The amount of \$3,050,037 was reclassified between the two components, to correct a misclassification of unfunded leave, but did not change the total Net Position in the Statement of Changes in Net Position at the beginning of FY 2005.
- (B) Costs related to High Intensity Drug Trafficking Areas (HIDTA) Grants were incurred and paid by CSOSA in FY 2004 but not billed to HIDTA until FY 2005. The restatement adjustment of \$477,305 increases the Accounts Receivable with the Public line item for the FY 2004 costs incurred which were not billed to HIDTA until FY 2005.

Note 13: Restatements (con't):

(C) The FECA Actuarial Liability of \$297,488 was not recorded in FY 2004. This restatement adjustment of \$297,488 records the liability and decreases Cumulative Results of Operations.

		Net Position
